### **COMPLETING THE MANDATED SERVICES AID FORMS**

#### **Getting Started:**

- Please read the accompanying Guidelines for the 2013-14 school year before completing the mandated services aid forms. In addition to other information, the Guidelines describe requirements for each mandate and recordkeeping, and provide important information about calculating hourly rates and expenditures.
  - Assemble testing records, the Graduation Report, BEDS Report, attendance records, invoices for test kits, teacher workshop fees, calculators, scoring center costs, etc. and any other documentation that supports the Mandated Services Aid claim for each mandate.
  - Gather employee records showing gross salary, hours worked and allowable fringe benefits
  - Complete Sections II, III and the applicable parts of Section IV of the MSA-1 Form. Please note that the required fields are denoted with an asterisk. The online system performs the mathematical calculations to arrive at the average hourly rate and populates Section 1 – Summary of Expenditures page on the MSA-1. The online system also calculates the combined hours for each mandate.
  - Calculation of the average hourly rate for employees that performed the tasks for each mandate is not required when filing online. The online system will perform this function.
  - Calculation of the total expenditure for each mandate is not required when filing online. The online system will perform this function.
  - Transferring the total expenditure for each mandate to the MSA-1 Form, Section I-Summary is not required. The online system will perform this function. However, paper claimants should determine if explanations for increases in total PAR or total aid are required.
  - If submitting a paper claim, complete the MSA-1 cover page and obtain the original signature of the Chief Executive Officer or Chief Financial Officer.
  - **Submit application online or mail the completed MSA-1 and this Schedule A/Worksheet to the Office of Grants Management at the above address by January 14, 2015.**
-

## CALCULATION OF HOURLY RATES AND CALCULATION OF EXPENDITURES

**Time and Effort Standards** - The amount of time and effort that can be reasonably expected for each mandate is provided in Time and Effort Standards Charts. The Time and Effort Standards Chart for PAR and State tests are included in the MSA-1 Form. The standards are the required measure of time and effort and cannot be exceeded. For certain mandates and salary groups within mandates, the standards are fixed and have been pre-entered for the Calculation of Expenditures on the following pages. Where the standards are variable, the online system will calculate the combined hours. If using the paper claim form, you may choose to perform this calculation.

Did you remember?

- **Hourly rates** must be reported in **dollars and cents** (e.g., \$26.77 = \$26.77). Combined hours must be rounded to the nearest whole number (e.g., 16.49 and below = 16; 16.5 and above = 17). The online system will generate the combined hours.
- **Expenditures** must be rounded to **the next highest dollar** (e.g., \$455.02 = \$456). The online system will generate the expenditures.
- Mail the completed **MSA-1 and this Worksheet**.
- Keep copies of both documents for your records.
